

# Biblical Christian Worldview

## 2011-2012 Course Offerings via Web Conferencing

Taught by James D. Nickel

*If you want to learn mathematics from a distinctively Biblical Christian perspective and have fun (and work hard) while doing it, here is an unique opportunity!*

James Nickel will bring over 30 years of research and teaching to several online math courses.

They are taught in conjunction with <http://www.pottersschool.org/>.

### Registration Schedule:

**Overseas families:** 6:00 pm ET Tuesday March 29, 2011: Families who will be outside the four continental US time zones for the school year.
